

FOR IMMEDIATE RELEASE

Anuvia Plant Nutrients Names Renninger Chief Financial Officer

Winter Garden, Fla. — April 8, 2020 — Anuvia Plant Nutrients, an environmentally sustainable plant nutrient company, is pleased to announce that Kyle Renninger is joining the company as Chief Financial Officer (CFO).

In his new position, Renninger will be a senior executive responsible for managing financial actions and planning and analyzing the company's financial status. As Anuvia CFO, Renninger will use his skills in finance to advance market growth of Anuvia's innovative, bio-based and sustainable products, including SymTRX™ for agriculture.

"We're excited to welcome Kyle to Anuvia," says Anuvia CEO Amy Yoder. "He is a proven finance and business leader focused on delivering results through strategic relationships that are critical to Anuvia's financial growth. Kyle's knowledge and experience will be a valuable asset to help bring fact and logic to financial decision making. Kyle brings valuable insight to addressing the needs and issues facing our business as we make financial decisions to succeed and grow."

Renninger brings 15 years of experience in his career leading the financial analysis and planning for global agricultural businesses. "I look forward to helping Anuvia build upon new and existing business relationships through continuous improvement in decision making and team building. The focus will be on developing policies, managing financial plans, assessing risks and analyzing data to ensure operational efficiency," says Renninger.

"With products like SymTRX, we can provide technology innovation that enhances profitability and sustainability, not only for farmers but also for the industries that support them and the food companies who want to meet consumer demand for environmentally friendly and sustainably sourced food and fiber."

Most recently, Renninger worked as CFO for Arysta LifeScience Corporation overseeing the North America, Australia and New Zealand business units. During his time with Arysta, Renninger served as Marketing Manager for U.S. Herbicides, Financial Planning and Analysis Manager, Manager of Sales & Operations Analysis and Reporting, Senior Financial Analyst, and Cost Accountant/Cost Analyst. His background also includes various cost accounting and manufacturing analysis positions for IBM.

Renninger holds a Bachelor of Science degree in Finance from Penn State University and a Master of Business Administration degree from Campbell University. He is also a Certified Management Accountant (CMA).

SymTRX is a bio-based sustainable plant nutrient. Anuvia's products and its technology represent a model for the circular economy: effective re-use of resources creating bio-based products that deliver nutrients efficiently while feeding the soil and protecting the environment.

###

About Anuvia Plant Nutrients

Anuvia Plant Nutrients manufactures high-efficiency, sustainable bio-based fertilizers for the agriculture, turf and lawncare industries. Located in Winter Garden, Fla., the company developed and uses a unique technology that not only optimizes nutrient availability and efficiency for plants, but also improves soil health, preserves natural resources and reduces greenhouse gas emissions. Anuvia is committed to offering easily adoptable, profitable and sustainable solutions to customers, their communities and global agriculture. This commitment recently earned Anuvia an honorable mention in the food category of *Fast Company's* 2019 World Changing Ideas Award.
