

FOR IMMEDIATE RELEASE

Elizabeth Lowery Joins Anuvia Plant Nutrients Board of Directors

WINTER GARDEN, Fla. September 22, 2021— Anuvia Plant Nutrients is pleased to announce that Elizabeth Lowery, a nationally recognized expert on environmental, social and governance (ESG) issues, has joined the company’s Board of Directors.

Currently Lowery serves as Senior Advisor, ESG and Sustainable Finance at ERM: Environmental Resources Management. Her previous experience includes Managing Director, ESG and Sustainability, at TPG, LLC, where she initiated ESG strategy development and deployment across the firm, through cross-functional engagement with portfolio companies to build sustainable businesses. In addition, Lowery spent 20 years at General Motors where she held numerous positions, including Corporate VP of Environment, Energy and Safety Policy.

In addition to her corporate responsibilities, she has served on several non-profit boards, including Chair of the World Environment Center, Chair of the InForum Center for Leadership, Keystone Center and the Alliance for Automobile Manufacturers.

“Beth brings a depth of knowledge, professionalism and practicality in her commitment to elevate sustainable business practices,” says Amy Yoder, CEO of Anuvia Plant Nutrients. “Her history of ESG awareness and actionable change across industry will be invaluable to our company.”

“I am excited to join the Board at Anuvia, a company that is leveraging its innovative technology to practical and sustainable use,” Lowery says. “Agriculture has a global impact on the economy, and Anuvia has an opportunity to be part of the solution.” Anuvia products and its technology represent a model for the circular economy: effective re-use of resources creating bio-based products that deliver nutrients efficiently, while feeding the soil and protecting the environment.
